Sınav notu 100/100

1- Make suggestions for improving human rights under the items given below. (2x10=20) E12.3.S1. Students will be able to make suggestions about improving human rights.

E.g. **Research human rights:** To promote human rights, you first need to understand the issues. Many people have good intentions, but if they lack accurate information, their efforts can make things worse. Commit to thorough research from credible sources, such as the United Nations, the World Health Organization, and news organizations with good track records.

Donation to good organizations:

Donating money is one of the best ways to promote human rights. Money allows organizations to continue their work whether it's providing aid to people in crisis.... ETC Students'own answers..

Vote in every elections:

If you live in a country with elections, you can promote human rights by voting whenever you can. That includes local elections, school board elections, and more. You can also participate in democracy by helping other people vote... ETC Students'own answers..

2. Find the 3 supporting sentences in text and write them in the box below. (3x5=15p) E12.3.R1. Students will be able to find the supporting ideas in a text about good practices on human rights around the world.

Food insecurity

its 2023 World Report on the UK, Human Rights Watch listed the “right to food” as an area of concern. The UK’s largest food bank network distributed 2.1 million emergency food parcels, which represents an 81% increase since 2017. Single-parent households, Black families, and people in social housing are the most likely to struggle with food security. People with disabilities and people receiving social security are also four times more likely to face food insecurity. All of these points show why food security is becoming a more serious issue.

1. The UK’s largest food bank network distributed 2.1 million emergency food parcels, which represents an 81% increase since 2017.
2. Single-parent households, Black families, and people in social housing are the most likely to struggle with food security
3. People with disabilities and people receiving social security are also four times more likely to face food insecurity

3. Here are some articles from the Universal Declaration of Human Rights. Circle the 2 statements that are about economic freedom and write a slogan or motto for these articles (15p) (Finding statements:5p, writing 2 slogan=2x5=10p) E12.3.W1. Students will be able to write mottos/slogans about human rights.

- **Article 1:** All human beings are born free and equal in dignity and rights
- **Article 4:** No one shall be held in slavery or servitude; slavery and the slave trade shall be prohibited in all their forms.
- **Article 5:** No one shall be subjected to torture or to cruel, inhuman or degrading treatment or punishment.
- **Article 7:** All are equal before the law and are entitled without any discrimination to equal protection of the law.
- **Article 11:** Everyone charged with a penal offence has the right to be presumed innocent until proved guilty according to law in a public trial at which he has had all the guarantees necessary for his defence.
- **Article 13:** Everyone has the right to leave any country, including his own, and to return to his country.
- **Article 15:** Men and women of full age, without any limitation due to race, nationality or religion, have the right to marry and to found a family.
- **Article 23:** Everyone has the right to work, to free choice of employment, to just and favourable conditions of work and to protection against unemployment.
- **Article 25:** Everyone has the right to a standard of living adequate for the health and well-being of himself and of his family,

Answer: Article 23 and 25

4. Read the text given below and answer the questions. (4x5=20p) E12.4.R1. Students will be able to read (aloud) a text about cyber crimes and rights to distinguish the lexis and jargon.

Virtual reality (VR) is like a super cool computer technology that makes you feel like you're inside a make-believe world. It's not just for games—people use it for all sorts of things!

Imagine playing a video game, but instead of just watching on a screen, you're in the game, doing all the fun stuff. That's what VR does for gaming—it makes it super real and fun! In school, teachers can use VR to take you on virtual trips to cool places, like historical sites or even outer space. It's like going on an adventure without leaving your classroom! Doctors are using VR to help people who are scared of things or have been through tough times. It's also like a practice tool for doctors to get really good at surgeries without any real danger. Moreover, businesses are adopting VR for training programs, allowing employees to simulate tasks and scenarios, from customer interactions to emergency procedures. This not only enhances training effectiveness but also reduces costs associated with traditional training methods. It's like playing a game to learn important stuff! The cool thing is, as technology gets even better, we'll find more awesome ways to use VR in our lives. It's like stepping into a whole new world with just a pair of special glasses!

1. What's the difference between regular gaming and VR gaming?
2. How can the teachers use virtual reality in schools?
3. How is virtual reality helping doctors?
4. In the workplace, how is VR being used to train employees, and why is it considered better than traditional training methods?

Answers:
