1. READ THE TEXT AND GIVE FULL ANSWER TO THESE QUESTIONS 30 pts

Albert Einstein was born in Germany on March 14, 1879. A short time later, his family moved to Munich and Albert started elementary school there, but he thought school was boring. At the age of fifteen, he left school without any degree. But a few years later, he continued his studies in Switzerland and graduated in 1900. He did a lot of research in Mathematics and Physics. In 1903, he got married to Mileva. One year later, his first son was born and his second son followed in 1910.

In 1909, he became a professor at the University of Zurich. His marriage with Mileva ended and he got married to Elsa Einstein in 1919. He became one of the most important scientists in the field of theoretical Physics. His discoveries changed man's view of the universe. In 1921, he was awarded the Nobel Prize for Physics and became famous. In 1939, he moved to America and died in 1955 there.

4. READ THE TEXT ABOUT EMILY / FRANK AND GIVE SHORT ANSWER TO QUESTIONS 20 pts

We have two new friends in our classroom this year. One of them is Emily and the other one is Frank. They are twelve years old. They are twins, but their appearances and personalities are completely different.

Emily is short and slim with long curly fair hair and freckles. Frank is tall and plump with short brown hair and brown eyes. Emily always tells the truth and makes us laugh. She sometimes talks a lot in the classroom. She is very intelligent and hardworking.

Frank is the opposite. He doesn't like studying, and he doesn't get good grades in the exams. He never changes his mind, too. He is never late for school.

They have similar interests. They love playing basketball together. They also love going cycling in their free time.
